

Residents burning debris and trash inadvertently start many wildfires.

Before you light a debris fire, consider these helpful tips:

- √ Obtain a burn permit if one is required in your area. Check with the local fire protection agency and DEQ for restrictions.
- √ Burn pile should be placed in a cleared area, away from overhead branches and wires, fences and structures.
- √ Burn only dry yard debris such as branches and clippings. Household trash should be taken to a recycling station.
